FROM: Richard A. Conforti, Jr., Environmental Engineer, Hazardous Waste Section  
Waste and Hazardous Materials Division

DATE: June 16, 2010

SUBJECT: Correction to the Public Notice for Receipt of the Hazardous Waste  
Management Facility Operating License Renewal Application for  
Dynecol, Inc.; MID 074 259 565

The Michigan Department of Natural Resources and Environment (DNRE), Waste and Hazardous Materials Division (WHMD), is correcting the public notice mailed on June 10, 2010. The telephone number provided in the public notice for John Cannon was incorrect. The correct telephone number is 313-571-7140. Please refer to the corrected, attached public notice.

For more information about this facility, please contact me, the permit engineer responsible for the review of this application, Hazardous Waste Section, WHMD, at 517-241-2108; confortir@michigan.gov; or DNRE, P.O. Box 30241, Lansing, Michigan 48909-7741.

PUBLIC NOTICE  
RECEIPT OF A HAZARDOUS WASTE MANAGEMENT FACILITY  
OPERATING LICENSE RENEWAL APPLICATION  
June 16, 2010

The Michigan Department of Natural Resources and Environment (DNRE) hereby gives notice that Dynecol, Inc., submitted a hazardous waste management facility operating license renewal application (Renewal Application) on September 14, 2007. Dynecol, Inc.'s current hazardous waste management facility operating license issued pursuant to Part 111, Hazardous Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, was issued on March 16, 1998.

Dynecol, Inc., operates its hazardous waste storage and treatment facility located at 6520 Georgia Street, Detroit, Michigan 48211. Dynecol, Inc., provides storage, trans-shipment, and consolidation services for hazardous wastes. Hazardous wastes are stored in containers and tanks and are treated in tanks at the facility. Hazardous wastes include wastes that exhibit a characteristic of ignitability, reactivity, corrosivity, and/or toxicity, and listed hazardous wastes that remain a hazardous waste unless excluded by rule, including wastes from nonspecific and specific sources, discarded commercial chemical products, off-specification species, containers, container residues, and spill residues. John Cannon is the contact person for Dynecol, Inc., and he can be reached by telephone at 313-571-7140.

DNRE staff members are reviewing the Renewal Application to determine if it is complete and technically satisfies all state hazardous waste facility licensing requirements. If the Renewal Application is found to be incomplete, the missing information will be requested from the applicant. As soon as the missing information is provided, the DNRE will proceed with the technical review of the Renewal Application. Based upon this review, the DNRE will propose to reissue or deny the operating license. Prior to a final determination, a public hearing may be held regarding the tentative decision.

A notice will appear in the local newspaper and the DNRE Environmental Calendar and be announced on a local radio station approximately 30 days prior to a public hearing date. At this time, the DNRE is soliciting public comments on the adequacy of the Renewal Application and any issues associated with the facility's past operation. Comments should be sent to the address shown below by July 12, 2010.

Dynecol, Inc.'s Renewal Application is available for inspection at the DNRE, Waste and Hazardous Materials Division, Constitution Hall, Atrium North Level, 525 West Allegan Street, Lansing, Michigan (contact Richard A. Conforti, Jr., at 517-241-2108); at the DNRE, Southeast Michigan District Office, 27700 Donald Court, Warren, Michigan (contact Jeanette Noechel at 586-753-3846); and at the DNRE, Detroit Field Office, Cadillac Place, 3058 West Grand Boulevard, Suite 2-300, Detroit, Michigan (contact Wilhemina McLemore at 313-456-4685).

To receive future departmental notifications concerning this facility, please submit a written request for placement on the Dynecol, Inc., mailing list to the address below. Questions regarding the facility should be addressed to:

## PUBLIC NOTICE

### RECEIPT OF AN OPERATING LICENSE MODIFICATION APPLICATION FOR A HAZARDOUS WASTE MANAGEMENT FACILITY MID 074 259 565

The Michigan Department of Environmental Quality (MDEQ) and the United States Environmental Protection Agency (U.S. EPA), Region 5, hereby gives notice that Dynecol, Inc. (Dynecol), submitted a Hazardous Waste Treatment and Storage Facility Operating License modification application on August 1, 2003 (application). Dynecol was issued a Hazardous Waste Treatment and Storage Facility Operating License effective March 16, 1998 (operating license), pursuant to the federal Resource Conservation and Recovery Act of 1976 and Michigan Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, for their hazardous wastes management activities. The operating license expires March 16, 2008. In the application, Dynecol proposes to add waste codes to their hazardous waste container management facility, eliminate groundwater detection monitoring, and add additional wastewater treatment equipment. The application does not propose to change the expiration date of the permit.

Dynecol operates a hazardous waste storage and treatment facility located at 6520 Georgia Street, Detroit, Michigan 48211. Dynecol receives containerized and bulk aqueous hazardous wastes from off-site facilities. Bulk aqueous hazardous wastes are treated on-site. The purified water is directed to the city of Detroit publicly-owned treatment works under a permit issued by that authority, and treatment residue is disposed of properly. Containerized hazardous wastes are treated, stored, and then shipped off-site for final disposal. Ms. Molly Dwinnells is the contact person for Dynecol. Her phone number is 313-571-7141.

MDEQ and U.S. EPA staff are reviewing the application to determine if it is complete and technically satisfies all state and federal hazardous waste facility licensing requirements. If the application is found to be incomplete, the missing information will be requested from the applicant. As soon as the missing information is provided, the MDEQ will proceed with the technical review of the application. Based upon this review, the MDEQ and U.S. EPA will propose to issue or deny the operating license modification. Prior to a final determination, a subsequent public notice offering the opportunity for a public hearing regarding the tentative decision will appear in this publication.

At this time, the MDEQ and U.S. EPA are soliciting public comments on the adequacy of the application and any issues associated with Dynecol's past operation. Comments should be sent to the address printed below.

Dynecol's renewal application is available for inspection at the MDEQ, Waste and Hazardous Materials Division Office, Atrium (Lower) Level North of Constitution Hall, 525 West Allegan Street, Lansing, Michigan (contact Mr. Kevin Holdwick at 517-241-2108) and at the MDEQ, Southeast Michigan District Office, 38980 West Seven Mile Road, Livonia, Michigan (contact Ms. Jeanette Noechel at 313-456-4664).

To receive future MDEQ notifications concerning Dynecol, please submit a written request for placement on the Dynecol mailing list to the address below. Questions regarding the facility should be addressed to: Mr. Kevin Holdwick, Hazardous Waste and Radiological Protection Section, Waste and Hazardous Materials Division, Michigan Department of Environmental Quality, P.O. Box 30241, Lansing, Michigan 48909-7741; 517-241-2108.

## PUBLIC NOTICE

### INTENT TO ISSUE A HAZARDOUS WASTE MANAGEMENT FACILITY OPERATING LICENSE RENEWAL TO DYNECOL, INC. IN DETROIT, MICHIGAN

The Department of Environmental Quality (DEQ) hereby gives notice of its intent to issue a hazardous waste storage and treatment facility operating license renewal to Dynecol, Inc. (Dynecol). Dynecol currently operates a hazardous waste storage and treatment facility for the management of hazardous wastes containing acids, alkalines, and cyanides. The draft license would allow the company to continue to operate and to conduct upgrades to its facility located at 6520 Georgia in Detroit, Michigan. Issuance of this license would maintain protection of human health and the environment.

The DEQ invites public comment on the draft operating license. **A public hearing on the draft operating license will be held at 7:00 p.m., on Monday, November 3, 1997, in the Lunch Room of Cooper Elementary School located at 6836 Georgia in Detroit, Michigan.** All speakers should register by 7:30 p.m., limit their oral presentation to five minutes, and if possible, submit two written copies of their presentation to the DEQ at the hearing. The public hearing location is accessible to handicapped persons. Any person requiring specialized accommodation or assistance, such as an interpreter for the deaf, meeting materials in Braille, large print, or an audio tape, should contact Mr. Dan Dailey at the address below, or at 517-335-6610 (TDD 517-335-4623) by October 20, 1997. The public comment period begins September 30, 1997 and ends November 14, 1997.

The administrative record for the draft operating license is on file at the DEQ's Waste Management Division office on the first floor of the John A. Hannah Building, located at 608 West Allegan (use P.O. Box 30241 for mailing) in Lansing, Michigan 48909 (contact Mr. Dan Dailey at 517-335-6610). In addition, copies of the draft operating license and the fact sheet are available for review at the DEQ Detroit Office, located at 300 River Place, Suite 3600 in Detroit, Michigan (contact Ms. Jeanette Noechel at 313-392-6564); and at the Sociology and Economics Reference Department of the Main Branch of the Detroit Public Library, located at 5201 Woodward Avenue in Detroit, Michigan (contact the reference desk Tuesday through Saturday during regular business hours at 313-833-1440).

Comments and requests regarding the draft operating license, requests to be placed on the facility mailing list, and requests for information, including request for copies of the draft license and fact sheet should be sent to Mr. Dan Dailey at the DEQ's Lansing address given above. Written comments concerning the draft license should include the name and address of the writer, a concise statement of the basis for the comments, and the supporting relevant facts upon which the comments are based. Written comments must be postmarked no later than November 14, 1997. Before issuing a final decision on the permits, the DEQ will evaluate all comments received. Information regarding the final decision on the license will be communicated to all persons who submit written comments or who are on the facility mailing list. The DEQ will respond to all significant comments on the draft license and explain any changes. This notice is given in accordance with R 299.9519 and R 299.9511 of Part 111, Hazardous Waste Management, of Michigan's Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. Issuance of this license would maintain protection of human health and the environment.

PUBLIC NOTICE

RECEIPT OF AN OPERATING LICENSE MODIFICATION APPLICATION  
FOR A HAZARDOUS WASTE MANAGEMENT FACILITY  
MID 074 259 565

The Michigan Department of Environmental Quality (MDEQ) and the United States Environmental Protection Agency (U.S. EPA), Region 5, hereby gives notice that Dynecol, Inc. (Dynecol), submitted a Hazardous Waste Treatment and Storage Facility Operating License modification application on August 1, 2003 (application). Dynecol was issued a Hazardous Waste Treatment and Storage Facility Operating License effective March 16, 1998 (operating license), pursuant to the federal Resource Conservation and Recovery Act of 1976 and Michigan Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, for their hazardous wastes management activities. The operating license expires March 16, 2008. In the application, Dynecol proposes to add waste codes to their hazardous waste container management facility, eliminate groundwater detection monitoring, and add additional wastewater treatment equipment. The application does not propose to change the expiration date of the permit.

Dynecol operates a hazardous waste storage and treatment facility located at 6520 Georgia Street, Detroit, Michigan 48211. Dynecol receives containerized and bulk aqueous hazardous wastes from off-site facilities. Bulk aqueous hazardous wastes are treated on-site. The purified water is directed to the city of Detroit publicly-owned treatment works under a permit issued by that authority, and treatment residue is disposed of properly. Containerized hazardous wastes are treated, stored, and then shipped off-site for final disposal. Ms. Molly Dwinnells is the contact person for Dynecol. Her phone number is 313-571-7141.

MDEQ and U.S. EPA staff are reviewing the application to determine if it is complete and technically satisfies all state and federal hazardous waste facility licensing requirements. If the application is found to be incomplete, the missing information will be requested from the applicant. As soon as the missing information is provided, the MDEQ will proceed with the technical review of the application. Based upon this review, the MDEQ and U.S. EPA will propose to issue or deny the operating license modification. Prior to a final determination, a subsequent public notice offering the opportunity for a public hearing regarding the tentative decision will appear in this publication.

At this time, the MDEQ and U.S. EPA are soliciting public comments on the adequacy of the application and any issues associated with Dynecol's past operation. Comments should be sent to the address printed below.

Dynecol's renewal application is available for inspection at the MDEQ, Waste and Hazardous Materials Division Office, Atrium (Lower) Level North of Constitution Hall, 525 West Allegan Street, Lansing, Michigan (contact Mr. Kevin Holdwick at 517-241-2108) and at the MDEQ, Southeast Michigan District Office, 38980 West Seven Mile Road, Livonia, Michigan (contact Ms. Jeanette Noechel at 313-456-4664).

To receive future MDEQ notifications concerning Dynecol, please submit a written request for placement on the Dynecol mailing list to the address below. Questions regarding the facility should be addressed to: Mr. Kevin Holdwick, Hazardous Waste and Radiological Protection Section, Waste and Hazardous Materials Division, Michigan Department of Environmental Quality, P.O. Box 30241, Lansing, Michigan 48909-7741; 517-241-2108.

Lansing, Michigan 48906

Dear Ms. Knapp:

SUBJECT: Public Notice for Dynecol Receipt of Modification Application;  
MID 074 259 565

I have reviewed the ad copy of the public notice for the subject facility you faxed to me on August 20, 2003 and it is approved. Please publish a copy of the public notice in the Detroit Michigan Chronicle as a display ad on September 24, 2003. Publishing the notice on the date specified is important. Please notify me immediately if it cannot be published as requested. The notice should be run for one day only. The Waste and Hazardous Materials Division received an advertising estimate of \$580.32 on August 20, 2003, to have the notice published. If the actual cost to publish the notice is more than the estimate, please notify me prior to publishing it.

Please send the bill and a tear sheet, as proof of publication, to:

Ms. Larie McFadden

**PUBLIC NOTICE**

Dynecol, Inc. is a commercially operated hazardous waste treatment/storage facility located in Detroit, Michigan. In May 1990, Dynecol received renewal of its Michigan Hazardous Waste Facility Operating License (Act 64/451) and was issued a Final Permit by the United States Environmental Protection Agency ("U.S. EPA") for the Hazardous and Solid Waste Amendments ("HSWA") of 1984.

Effective August 9, 1995, an additional sixty four (64) waste codes, as listed in the Federal Register (Volume 60, Number 27, February 9, 1995) became regulated under 40 CFR Part 261 Subpart D. The submittal of a Class 1 Permit Modification Request to the U.S. EPA Region 5 ("Agency") for the addition of the newly identified waste codes to the facility permit was completed by Dynecol, Inc. on August 4, 1995. Dynecol, Inc. subsequently submitted on January 26, 1996, a Class 2 Permit Modification Request to the Agency for the addition of the aforementioned new waste codes to the operating permit.

In the interest of keeping the community informed of our activities, and pursuant to the requirement of 40 CFR Part 270.42(b)(2), Dynecol, Inc. is providing notice of the Class 2 Permit Modification Request.

The 60-day comment period will start on February 2, 1996, and a copy of the Class 2 Permit Modification Request and any supporting documents is kept at the Detroit Public Library, Sociology and Economics Department, #5201 Woodward Avenue, Detroit, MI 48202, for public reviewing and/or copying purposes.

A public meeting will be held February 21, 1996, between 4:00 and 6:00 PM, at the East Side YMCA (Youth Lobby), 10100 Harper Avenue, Detroit, Michigan 48213.

Any questions or requests for information may be directed to Shari Sutker of U.S. EPA Region 5 at (312) 886-6151 or Frank Biermann/Dave Lobbstaal of Dynecol at (313) 571-7141. The permittee's compliance history during the life of the permit being modified is available from the Agency contact person

### **PUBLIC NOTICE**

Dynecol, Inc. is a commercially operated hazardous waste treatment and storage facility located in Detroit, Michigan. On March 16, 1998 Dynecol received renewal of its Michigan Hazardous Waste Facility Operating License (Act 451).

Effective November 4, 1998 an additional two waste codes became regulated under 40 CFR Part 261 Subpart D. On November 4, 1998 Dynecol submitted a Class 1 Permit Modification Request to the U.S. EPA Region V for the addition of the newly promulgated waste codes to the facility permit. On May 2, 1999 Dynecol, Inc. submitted a Class 3 Permit Modification Request to the U.S. EPA Region V for the continued management of these waste codes and documentation regarding the addition of storage and treatment capacity to the operating permit.

In the interest of keeping the community informed of our activities and pursuant to the requirement of 40 CFR part 270.42 (c)(2), Dynecol, Inc. is providing notice of the Class 3 Permit Modification Request.

A 60 day comment period will start on May 7, 1999 and a copy of the Class 3 Permit Modification Request and any supporting documents will be kept for public viewing and or copying at the Detroit Public Library, Sociology and Economics Department, 5201 Woodward Avenue, Detroit, Michigan, 48202.

A public meeting will be held June 7, 1999 between 4:00 PM and 6:00 PM at the East Side YMCA (Youth Lobby) 10100 Harper Avenue, Detroit, Michigan 48213.

Any questions or requests for information may be directed to Gregory Rudloff of U.S. EPA Region V at (312) 886-0455 or Dave Lobbestael of Dynecol at (313) 571-7141. The permittee's compliance history during the life of the permit being modified is available from the U.S. EPA contact person.

**PUBLIC NOTICE**

Dynecol, Inc. is a commercially operated hazardous waste treatment and storage facility located in Detroit, Michigan. On March 16, 1998 Dynecol received renewal of its Michigan Hazardous Waste Facility Operating License (Act 451).

Effective February 9, 1999 five new waste codes became regulated under 40 CFR Part 261 Subpart D. On February 9, 1999 Dynecol submitted a Class 1 Permit Modification Request to the U.S. EPA Region V for the addition of the newly promulgated waste codes to the facility permit. On August 9, 1999 Dynecol, Inc. submitted a Class 3 Permit Modification Request to the U.S. EPA Region V for the continued management of these waste codes and documentation regarding the addition of storage and treatment capacity to the operating permit.

In the interest of keeping the community informed of our activities and pursuant to the requirement of 40 CFR part 270.42 (c)(2), Dynecol, Inc. is providing notice of the Class 3 Permit Modification Request.

A 60 day comment period will start on August 11, 1999 and a copy of the Class 3 Permit Modification Request and any supporting documents will be kept for public viewing and or copying at the Detroit Public Library, Sociology and Economics Department, 5201 Woodward Avenue, Detroit, Michigan, 48202.

A public meeting will be held September 20, 1999 between 4:00 PM and 5:00 PM at the East Side YMCA (Youth Lobby) 10100 Harper Avenue, Detroit, Michigan 48213.

Any questions or requests for information may be directed to Gregory Rudloff of U.S. EPA Region V at (312) 886-0455 or Dave Lobbestael of Dynecol at (313) 571-7141. The permittee's compliance history during the life of the permit being modified is available from the U.S. EPA contact person.

## NOTICE

Dynecol, Inc. is a commercially operated hazardous waste treatment/storage facility located in Detroit, Michigan. In May 1990, Dynecol received renewal of its Michigan Hazardous Waste Facility Operating License (Act 64) and was issued a Final Permit by the U.S. EPA for the Hazardous and Solid Waste Amendments of 1984.

Effective August 9, 1995, an additional sixty four (64) waste codes, as listed in the Federal Register (Volume 60, Number 27, February 9, 1995) became regulated under 40 CFR Part 261 Subpart D. On August 4, 1995, Dynecol submitted a Class I Permit Modification to the U.S. EPA Region V for the addition of the sixty four (64) waste codes, as described above, to our existing permit.

In compliance with the requirement of 40 CFR 270.42(a)(ii), Dynecol is sending notice of this permit modification request to its facility mailing list as provided by the Michigan Department of Environmental Quality.

Please note, this is a revised version of the original notice due to typographical error.

PUBLIC NOTICE

INTENT TO ISSUE AN OPERATING LICENSE TO  
DYNECOL, INC. HAZARDOUS WASTE STORAGE AND TREATMENT FACILITY  
DETROIT, MICHIGAN

The Michigan Department of Natural Resources (MDNR), and the United States Environmental Protection Agency (U.S. EPA) Region V, hereby give notice of their intent to issue a joint Michigan Public Act 64 operating license and federal Resource Conservation and Recovery Act (RCRA) permit to Dynecol, Inc. The operating license and RCRA permit would allow Dynecol to continue to operate a hazardous waste storage and treatment facility at 6520 Georgia Street in Detroit, Michigan. Dynecol currently stores and treats wastes in tanks under an Act 64 operating license issued on March 17, 1982 and amended on July 27, 1987. Under the renewal license, Dynecol will also be allowed to store and consolidate containerized wastes. This notice is given in accordance with Section 24 of Act 64, R 299.9511 of the Act 64 Administrative Rules, Section 7004 of RCRA and Title 40, Section 124.10 of the Code of Federal Regulations. The MDNR and U.S. EPA invite public comment on the application, the draft operating license and the draft RCRA permit.

The U.S. EPA and the MDNR also give notice that further evaluation is necessary to determine whether or not releases of hazardous waste or hazardous constituents to the environment have occurred or are occurring from any solid waste management unit at the Dynecol facility. The determination is one of the steps U.S. EPA is undertaking to fulfill its obligations under the RCRA Hazardous and Solid Waste Amendments of 1984 (HSWA). Section 3004(u) of RCRA requires that all hazardous waste management permits issued after November 8, 1984 require corrective action for all releases of hazardous waste or hazardous constituents to the environment from any solid waste management unit at the facility to be permitted. Furthermore, permits may contain a schedule of compliance for such corrective action when such corrective action cannot be completed prior to issuance of the permit, and must contain assurances of financial responsibility for completing corrective action, waste minimization and minimum technology requirements.

A public hearing will be held on Wednesday, February 21, 1990, at the Samaritan Hospital Employee Cafeteria located at 5555 Conner in Detroit, Michigan. The hearing will begin at 7:00 p.m. and will continue until all persons have had the opportunity to present their comments for the record. Speakers should register by 7:30 p.m., limit their oral presentations to five minutes and, if possible, submit two copies of their presentations to the MDNR and U.S. EPA in written form at the hearing. The public comment period for the operating license application, the draft operating license and the draft RCRA permit begins on January 18, 1990 and ends on March 8, 1990. Written comments on the application, the draft operating license and draft RCRA permit will be accepted during the public comment period. All comments submitted for consideration by MDNR and U.S. EPA must be postmarked by March 8, 1990. Comments regarding the Act 64 operating license should be addressed to:

Ms. Cheryl Howe  
Waste Management Division  
Department of Natural Resources  
Box 30241  
Lansing, Michigan 48909  
517-373-9881

Comments regarding the RCRA permit should be addressed to:

Mr. Dave Petrovski  
U.S. EPA - Region V, 5HR-JCK-13  
230 South Dearborn Street  
Chicago, Illinois 60604  
312-886-0997

The Dynecol operating license application, the draft Act 64 operating license, the draft RCRA permit, the facility fact sheet and information regarding the MDNR/U.S. EPA assessment of prior releases of hazardous waste are available for inspection at the MDNR, Northville District Office located at 505 West Main Street in Northville, Michigan (contact Mr. Don Mbamah at 313-344-4670); and at the Wayne County Health Department, Air Pollution Control Division, located at 2211 East Jefferson in Detroit, Michigan (contact Ms. Kay Bedenis at 313-567-0710). These materials and other supporting documents, including all information submitted by the applicant, are also available at the MDNR, Waste Management Division Office located on the first floor of the South Ottawa Building in Lansing, Michigan (contact Ms. Cheryl Howe at 517-373-9881); and at the U.S. EPA Region V Office, RCRA Permitting Branch, located at 230 South Dearborn Street in Chicago, Illinois (contact Mr. Dave Petrovski at 312-886-0997). Copies of the documents may be obtained by sending your request and mailing address to Ms. Jan Adams at the MDNR Lansing address given above. If the requested documents contain more than 50 pages, the copying costs will be assessed.

After the close of the public comment period and before issuing a final permit decision, the MDNR and U.S. EPA will evaluate all comments received. The final permit decisions by the MDNR and the U.S. EPA will be communicated to the applicant, all persons who submit written comments, all persons who make statements at the public hearing and all persons on the facility mailing list. Under R 299.9511 of the Act 64 Administrative Rules and Title 40 of the Code of Federal Regulations, Section 124.17, the MDNR and U.S. EPA will also respond to all significant comments on the operating license and permit, specify which provisions of the draft operating license and permit were changed, if any, and indicate whether additional documents have been included in the administrative record.

The public hearing location is accessible to handicapped persons. Handicappers or any person requiring specialized accommodation or assistance, such as an interpreter for the deaf, meeting materials in braille, large print or on audio tape, should contact Ms. Cheryl Howe at the MDNR Lansing address given above or at 517-373-9881 (TDD 517-335-4623) by February 12, 1990.

## PUBLIC NOTICE

### INTENT TO ISSUE AN OPERATING LICENSE TO DYNECOL, INC. HAZARDOUS WASTE STORAGE AND TREATMENT FACILITY DETROIT, MICHIGAN

The Michigan Department of Natural Resources (MDNR), and the United States Environmental Protection Agency (U.S. EPA) Region V, hereby give notice of their intent to issue a joint Michigan Public Act 64 operating license and federal Resource Conservation and Recovery Act (RCRA) permit to Dynecol, Inc. The operating license and RCRA permit would allow Dynecol to continue to operate a hazardous waste storage and treatment facility at 6520 Georgia Street in Detroit, Michigan. Dynecol currently stores and treats wastes in tanks under an Act 64 operating license issued on March 17, 1982 and amended on July 27, 1987. Under the renewal license, Dynecol will also be allowed to store and consolidate containerized wastes. This notice is given in accordance with Section 24 of Act 64, R 299.9511 of the Act 64 Administrative Rules, Section 7004 of RCRA and Title 40, Section 124.10 of the Code of Federal Regulations. The MDNR and U.S. EPA invite public comment on the application, the draft operating license and the draft RCRA permit.

The U.S. EPA and the MDNR also give notice that further evaluation is necessary to determine whether or not releases of hazardous waste or hazardous constituents to the environment have occurred or are occurring from any solid waste management unit at the Dynecol facility. The determination is one of the steps U.S. EPA is undertaking to fulfill its obligations under the RCRA Hazardous and Solid Waste Amendments of 1984 (HSWA). Section 3004(u) of RCRA requires that all hazardous waste management permits issued after November 8, 1984 require corrective action for all releases of hazardous waste or hazardous constituents to the environment from any solid waste management unit at the facility to be permitted. Furthermore, permits may contain a schedule of compliance for such corrective action when such corrective action cannot be completed prior to issuance of the permit, and must contain assurances of financial responsibility for completing corrective action, waste minimization and minimum technology requirements.

A public hearing will be held on Wednesday, January 17, 1990, at the Samaritan Hospital Employee Cafeteria located at 5555 Conner in Detroit, Michigan. The hearing will begin at 7:00 p.m. and will continue until all persons have had the opportunity to present their comments for the record. Speakers should register by 7:30 p.m., limit their oral presentations to five minutes and, if possible, submit two copies of their presentations to the MDNR and U.S. EPA in written form at the hearing. The public comment period for the operating license application, the draft operating license and the draft RCRA permit begins on December 18, 1989, and ends on February 1, 1990. Written comments on the application, the draft operating license and draft RCRA permit will be accepted during the public comment period. All comments submitted for consideration by MDNR and U.S. EPA must be postmarked by February 1,

1990. Comments regarding the Act 64 operating license should be addressed to:

Ms. Cheryl Howe  
Waste Management Division  
Michigan Department of Natural Resources  
Box 30241  
Lansing, Michigan 48909  
517-373-9881

Comments regarding the RCRA permit should be addressed to:

Mr. Dave Petrovski  
U.S. EPA - Region V, 5HR-JCK-13  
230 South Dearborn Street  
Chicago, Illinois 60604  
312-886-0997

The Dynecol operating license application, the draft Act 64 operating license, the draft RCRA permit, the facility fact sheet and information regarding the MDNR/U.S. EPA assessment of prior releases of hazardous waste are available for inspection at the MDNR, Northville District Office located at 505 West Main Street in Northville, Michigan (contact Mr. Don Mbamah at 313-344-4670); and at the Wayne County Health Department, Air Pollution Control Division, located at 2211 East Jefferson in Detroit, Michigan (contact Ms. Kay Bedenis at 313-567-0710). These materials and other supporting documents, including all information submitted by the applicant, are also available at the MDNR, Waste Management Division Office located on the first floor of the South Ottawa Building in Lansing, Michigan (contact Ms. Cheryl Howe at 517-373-9881); and at the U.S. EPA Region V Office, RCRA Permitting Branch, located at 230 South Dearborn Street in Chicago, Illinois (contact Mr. Dave Petrovski at 312-886-0997). Copies of the documents may be obtained by sending your request and mailing address to Ms. Jan Adams at the MDNR Lansing address given above. If the requested documents contain more than 50 pages, the copying costs will be assessed.

After the close of the public comment period and before issuing a final permit decision, the MDNR and U.S. EPA will evaluate all comments received. The final permit decisions by the MDNR and the U.S. EPA will be communicated to the applicant, all persons who submit written comments, all persons who make statements at the public hearing and all persons on the facility mailing list. Under R 299.9511 of the Act 64 Administrative Rules and Title 40 of the Code of Federal Regulations, Section 124.17, the MDNR and U.S. EPA will also respond to all significant comments on the operating license and permit, specify which provisions of the draft operating license and permit were changed, if any, and indicate whether additional documents have been included in the administrative record.

The public hearing location is accessible to handicapped persons. Handicappers or any person requiring specialized accommodation or assistance, such as an interpreter for the deaf, meeting materials in braille, large print or on audio tape, should contact Ms. Cheryl Howe at the MDNR Lansing address given above or at 517-373-9881 (TDD 517-335-4623) by January 12, 1990.

Dear Ms. Vaden:

SUBJECT: Public Service Announcement  
Dynecol, Inc.  
MID 074 259 565

Enclosed is a copy of a public service announcement that the Waste Management Division would like broadcast on WWJ radio. The announcement reports a public hearing to be held regarding the draft hazardous waste operating license for Dynecol, Inc. in Detroit, Michigan. The license will allow Dynecol, Inc. to continue to operate a hazardous waste storage and treatment facility.

The hearing will be held January 17, 1990. Please broadcast the announcement as many times as possible before that date. If you have any questions or comments, please contact me.

Sincerely,

Cheryl Howe  
Environmental Engineer  
Waste Management Division

DYNECOL, INC. HAZARDOUS WASTE MANAGEMENT FACILITY

PUBLIC SERVICE ANNOUNCEMENT

The Michigan Department of Natural Resources and the United States Environmental Protection Agency have prepared a draft Act 64 operating license and a draft RCRA permit for Dynecol, Inc.. The operating license and RCRA permit will allow Dynecol, Inc. to continue to operate its hazardous waste storage and treatment facility located at 6520 Georgia Street in Detroit, Michigan.

A public hearing will be held on Wednesday, January 17, 1990 at the Samaritan Hospital Employee Cafeteria located at 5555 Conner in Detroit, Michigan. The hearing will begin at 7:00 p.m. and will continue until all persons have had the opportunity to state their comments for the record. Written comments on the draft operating license may be sent to: Michigan Department of Natural Resources, Waste Management Division, Box 30241, Lansing, Michigan 48909. Comments concerning the RCRA permit may be sent to U.S. EPA, RCRA Permitting Branch, 230 South Dearborn Street, Chicago, Illinois 60604. All comments must be postmarked by February 1, 1990, the end of the public comment period.

The license application, the draft operating license, the draft RCRA permit, and the facility fact sheet are available for review at the Wayne County Air Pollution Control Division Office located at 2211 East Jefferson in Detroit, Michigan.

For more information, citizens may contact Waste Management Division staff at 517-373-2730.
